

All the power you need – without ever disturbing the fish

Yamaha Electric Drives are the most environment-friendly way to power your small boat when you're out relaxing on the water.

With these neat units, relaxation is the key. There is almost no noise and certainly no exhaust fumes, so you never have to worry about anything disturbing you – or about disturbing anything else, because for keen fishermen and lovers of nature that's the added bonus: a Yamaha Electric Drive won't scare wildlife away. So you can make the most of your day in the great outdoors.

Powered by a compact 12-Volt battery, your Yamaha Electric Drive is ultra-portable. Which also makes it perfect for a small tender or dinghy.

- Lever Lock Bracket
- Telescoping Tiller
- Digital Maximizer™
- Push-to-Test Battery Meter
- Power Propeller
- Indestructible Composite Shaft
- Cool, Quiet Power

Lever Lock Bracket

This solid 10-position bracket features a quick-release lever lock and reinforced composite material that resists flexing, warping, and UV damage.

Telescoping Tiller

Get easy, comfortable, intuitive operation of your motor with the 15 cm telescoping tiller.

Digital Maximizer™

Yamaha motors equipped with Digital Maximizer™ provide up to 5 times longer run times on a single battery charge. These variable speed trolling motors let you dial in your exact speed, and they deliver only as much power as you need, helping to conserve your battery for a full day of fishing.

Push-to-Test Battery Meter

Press a button on the trolling motor head to get an instant status of battery life you have left.
