

Choose a YAM as your trusty partner

Jump into a YAM and join the thousands of happy owners cruising round the ports, marinas and inland waters of Europe. Renowned for their simple, stylish designs, ease of use and optimal value for money, Yam inflatables help people get out on the water more easily – and have more fun.

All YAM models share the Yamaha reputation for proven reliability – and durability that's really long-lasting. The special hulls ensure practicality, agility and performance while offering a comfortable, secure ride.

Just add a Yamaha outboard, with its all-weather reliability and world class performance – for an unbeatable package.

- Great as a user-friendly tender or family runabout
- Small and easy to fold and stow away
- Provides a stable and comfortable ride
- Very easy to control and manoeuvre
- PVC covered transom reinforced for a Yamaha outboard motor or electric drive
- Premium quality material and production methods (like glue-less hot welding)
- The perfect partner for a Yamaha outboard engine

Proven match to Yamaha Electric Drives

Our Tender-series YAM inflatables are making a great combination with the Yamaha Electric Drives. The quiet, clean and easy to use and maintain package works especially great as tender. Of course, our Yamaha engineers have designed and tested these boats to also be a perfect match for our small outboards motors.

Light, compact but strong slatted floor

Our Tender series inflatables have a unique slatted floor, which makes the boats even smaller to fold-away. This especially is the case for our smallest Tender boat, the YAM 200T. Of course, the tenders are designed to remain stiff and strong when inflated and in use.

Easy to transport

Every YAM comes with everything needed for instant boating enjoyment. The strong carrying bag is convenient for stowing your YAM in a car boot or on a roof rack – and the floors, seats and fittings are all very simple to install. A powerful air pump is also supplied, so your YAM will be ready to go in a matter of minutes.

Built to take care of you

While designing the YAM boats, our designers always kept the end-user on top of their mind – trying to make the usage as simple and safe as possible. Our ingenious high-quality air valve is a good example – exceptionally reliable and airtight, it's easy to operate and is flush with the surface of the tube, preventing snagging or discomfort, while we added the maximum pressure in writing next to the valve, so you are always sure about the pressure you should apply.

PVC-covered reinforced transom

Showing our dedication to quality, we have covered our transom with black PVC. This makes the transom even more resistant to wear and tear and to UV-light, increasing its durability. Of course, the transom is specially designed and tested for a Yamaha outboard engine.

Inflatable specifications	
Overall length	1.97 m
Beam	1.31 m
Max. persons	1 + 1 (adult + child)
Max engine power	1.9 kW / 2.5 hp
No of air chambers	2
Stowed dimensions	102 x 58 x 29 cm
Floor material/type	Wood slats
Hull weight	16.65 kg
Max load capacity	250 kg
Max tube diameter	35 cm
