

Wherever you go and whatever you do, the compact and lightweight EF2200iS is ready to deliver instant power for business or pleasure. Its range of convenient features make it a joy to operate – and with a low weight of just 25kg this rugged generator is easy to carry and transport.

Powerful, quiet, economical and compact, the high output Yamaha EF2200iS packs a mighty punch. It's designed to deliver max 2.2kVA of clean power in any location, making it ideal for a wide range of applications.

Yamaha's Smart Throttle technology gives you up to 10.5 hours of continuous performance at ¼ load – and with an ultra-low noise output of just only 57dBA (at 7 metres and ¼ load), the EF2200iS quietly and efficiently gets on with its job while you get the most of your day, whether you're at work or play.

- Rugged design with advanced Yamaha technology
- Smart Throttle ensures extra-long run time of up to 10.5 hours at ¼ load
- Max 2.2 kVA of clean, modulated high power output
- Economical and powerful Yamaha MZ80 engine
- Ultra-quiet operation – only 57dBA at 7 metres and ¼ load
- Convenient Tri-handle design for easy carrying by 2 people
- Overload Power Reset button restores power in 3 seconds
- Yamaha Easy Carburettor Drain eliminates stale fuel issues
- Fuel gauge and LED illuminated control panel

Rugged design with advanced Yamaha technology

When you choose a Yamaha generator you can be sure that it has been designed to deliver the power you need wherever you may go. Its rugged design can handle everyday use – while the advanced technology gives you clean and quiet power all day long.

Smart Throttle ensures extra-long run time of up to 10.5 hours

Yamaha's sophisticated Smart Throttle achieves greater fuel efficiency and reduced noise levels by automatically adjusting engine speeds to match the load. With a 4.7 liter fuel tank, the economical and powerful Yamaha MZ80 engine provides you with up to 10.5 hours of power at ¼ rated load.

Ultra-quiet operation

With its ultra-quiet operation of just 57dBA at 7 meters and ¼ rated load, the hard-working EF2200iS gets on with its job with minimum fuss while you go about your business or pleasure.

Easy to carry and transport

Weighing just 25kg, the compact EF2200iS is easy to carry and transport thanks to its convenient Tri-handle design. Measuring just 555x300x470, it takes up minimal space in your car, boat or trailer.

Simple design and user-friendly features

The EF2200iS is full of user-friendly features that make it a joy to operate. The Yamaha Smart Dial makes stopping and starting simple, and the fuel gauge and LED illuminated control panel keep you informed.

Added convenience

If you inadvertently exceed the rated output there's an overload power reset button that enables you to resume power in 3 seconds without shutting the unit down – and the Yamaha Easy Carburettor Drain ensures all fuel is released to prevent future stale fuel issues.

Engine

Maximum power output	2200 VA
Starting system	manual recoil (with auto decompressor)

Generator

Generator type	Inverter
Frequency	50 hz
Rated AC output	1800 VA
Max AC output	2200 VA
Voltage AC	230 V
DC output	12V/8A
Power factor	1,0
Starter	manual recoil (with auto decompressor)
Operating hours without refill	4,2 - 10,5

Dimensions

Overall length	555 mm
Overall width	300 mm
Overall height	470 mm
Weight (kg)	25 kg
Fuel tank capacity	4,7 L
Noise level (LWA)	92 dB
Noise level 7 m	65 dB

EF2200iS
